

Faster Credentialing Can Improve Healthcare in America

It can take anywhere from a few weeks to six months for a physician to get credentialed¹

The average doctor spends

8.7 HOURS

per week on administration²

Doctors could start work sooner

\$25,000+

in lost income waiting to get credentialed³

Average school debt in 2018⁴

That's **\$2,000+** a month for a **DECADE** with a 5% loan⁵

Fast credentialing saves facilities

\$150,000+

per physician per month⁷

The industry could save billions

\$361 BILLION

spent annually on healthcare administration

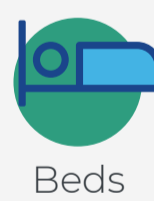

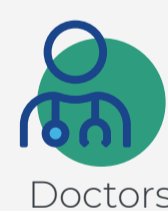

with half of that being unnecessary⁶

Patients could receive better care

11%
of patients

Feel they have enough time together for quality care⁸

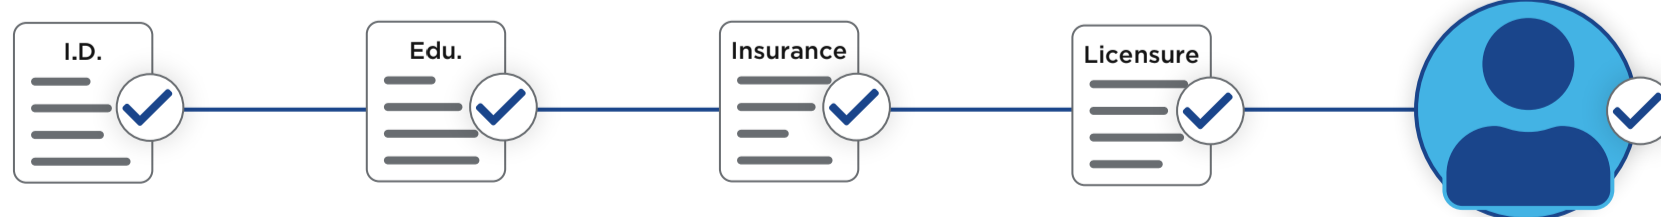

14%
of physicians

Money saved can be put towards:

Faster credentialing is here

“Intiva Health is streamlining the credentialing process with Ready Doc. Ultimately the healthcare industry will save billions a year in administrative tasks.”

- Robb Duke
