

# Faster Credentialing Can Improve Healthcare in America

It can take anywhere from a few weeks to six months for a physician to get credentialed<sup>1</sup>

The average doctor spends

**8.7 HOURS**

per week on administration<sup>2</sup>

Doctors could start work sooner

**\$25,000+**

in lost income waiting to get credentialed<sup>3</sup>

**\$192,000**

Average school debt in 2018<sup>4</sup>

That's **\$2,000+** a month for a **DECADE** with a 5% loan<sup>5</sup>

Fast credentialing saves facilities

**\$150,000+**

per physician per month<sup>7</sup>

The industry could save billions

**\$361 BILLION**

spent annually on healthcare administration

with half of that being unnecessary<sup>6</sup>

Patients could receive better care

**11%**  
of patients

Feel they have enough time together for quality care<sup>8</sup>

**14%**  
of physicians

Equipment

Doctors

Beds

Money saved can be put towards:

Nurses

Facilities

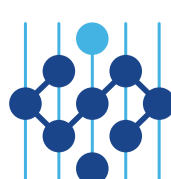

Faster credentialing is here

“Intiva Health is streamlining the credentialing process with Ready Doc. Ultimately the healthcare industry will save billions a year in administrative tasks.”

- Robb Duke
